Subject: Radiation Exposure Concern from Disaster in Japan

Dear UCLA Health System Faculty, Staff, Students, and Volunteers,

Please see the attached email and document released by LA County Public Health concerning the potential effects of radiation from Japan. There are currently **no anticipated effects** of the radiation to the United States however there have been many concerns by local citizens. **LA County is closely monitoring the situation** and also monitoring local conditions.

We will continue to monitor this situation closely and provide additional information if the situation changes.

Sincerely,

Bill Dunne

William J. Dunne, MS, NREMT-P
